EuroKom + Unit 4 = Increased Security

Filed in TechnologyTelecoms, Post & Mobile Phone Technology on February 28, 2007

As IT security threats continue to multiply, EuroKom has further strengthened its security business through its purchase of Unit 4 Agresso Security Solutions Ireland Ltd.

EuroKom, already a key player in Ireland's secure communications solutions market has, through this acquisition, significantly increased its product portfolio. In business for 24 years, EuroKom has always provided its customers with leading-edge effective security products.

Unit 4, established in 1990 as Priority Data Systems Ltd was bought by Unit 4 Agresso NV in 2002. With an extensive portfolio of security products and services it is best known as a leading provider of McAfee anti-virus solutions, which it supplies to an impressive list of organisations throughout Ireland. EuroKom's timely purchase of Unit 4 coincides with security giant McAfee's launch of its first foray into the data loss prevention market.

EuroKom's core business is the provision of its managed e-mail service, MailKare, which they provide to over 50,000 business users in hundreds of Ireland's major companies and public sector organisations. They also provide a complete range of hardware and software security solutions. Incorporating Unit 4's products into this portfolio ensures they can continue to provide their customers with the range and quality of solutions they expect from an industry leader.

"EuroKom's products are already used by hundreds of companies throughout Ireland and unrivalled in reliability and security," said Seamus Conlon Managing Director of EuroKom. "We see our acquisition of Unit 4 as a significant event in the security marketplace. In particular, our partnership with McAfee who deliver proactive and proven solutions and services that secure systems and networks around the world, can only continue to expand our capabilities as security specialists and accelerate our position in the security industry in Ireland."

Unit 4, which currently has offices in the South City Business Park, Tallaght, Dublin, will now operate out of EuroKom's offices in Nutgrove Office Park, Rathfarnham, Dublin.
